32 NOMADTEC

The world is your office

The requirements to be a digital nomad are to have a remote job, a flexible schedule, good Wi-Fi connection, and language skills. Our NOMADTEC may not speak languages, but it will be your ideal suitcase if you want to travel with your laptop. The front pocket on the cabin suitcase allows you to access the computer conveniently. Polycarbonate and luxury finishes for an expandable collection in 3 sizes. Wifi and Nomadtec for traveling and working.

17 FLOW

The luggage with more flow

To have "flow" is to have style; it has a vibe. That indescribable something that makes someone or something distinguished, unique, and original. It's not that this suitcase has flow... It's the FLOW!

Durable, eco-friendly polypropylene and an original front design make this suitcase the sensation of the moment. Travel dancing with FLOW!

38 BOXING

First ROUND

BOXING is the strongest suitcase on the market. Made of Polypropylene, Boxing is light and hard as a stroke of Muhammad Ali. In several colours to choose from, it has a sporty but elegant design: the surface plays with the matt and the bright.

Apart from being an indestructible suitcase, it is expandable in all 3 sizes, so there is always a little more space. Its 4 double wheels make it move smoothly on any terrain. It is the ideal suitcase for long trips or for those seeking resistance. It is ready to endure all your adventures and you will get bored of it before it breaks. In a 10-round, BOXING would win.

08 BIONIC

YCLABLE

Tech and emotion

An expandable suitcase, light and made with the most resistant material in the market: recyclable polypropylene of the latest generation. Furthermore, it goes with a matching beauty case in the same material.

This collection will fulfill the expectations of the most demanding traveller. It expresses the uttermost elegance in its design and colours. Bionic is technology but it is also organic, it's resistant but delicate in its form, lightweight but sturdy.

Bionic offers you the superpower of travelling with ease and securely using one of the best suitcases right now. And being respectful with the environment. Bionic is not just a suitcase, it is the suitcase.

42 OCEAN

Sail, run , fly

Ocean is made of high-quality polypropylene: light-weight, super resistant and flexible. The best qualities to make your suitcase the best travel companion: lightness helps to load the suitcase and handle it comfortably, the flexibility of the material absorbs the possible shocks of the trip and the polypropylene gives it a great resistance.

Water dropwave engraving is a homage design to the oceans that make up most of the earth's surface. In addition, these waves provide greater resistance to scratches. The inverted zipper prevents the entering of water in case of rain, and it's also more effective in the face of possible theft attempts. The wheels are incredibly quiet and sturdy, well-designed and very compact giving great stability and easy-roll.

Oceans are the heart of our planet. Take an Ocean and discover the world!

34 KICK-OFF

The touchdown of luggage

American football fosters character in the player, creates self-confidence, discipline, commitment, teamwork, camaraderie, loyalty, physical and mental dedication (even exceeding their own limitations) and a well-founded pride, among other values. This suitcase shares all these qualities: it has character, resistance and it will become your faithful travel companion. You will always travel as a team.

Expandable in three sizes and with a design made to withstand the most daring adventures.

Kick off the journey!

29 TROPICAL

Joy

The colors of this collection are inspired by one of the most lively and colorful paradisiacal islands, Hawaii, an inspiration that offers as a result 6 spectacular shades, ranging from the most daring tones to the most classical ones.

Tropical, fun, vivid and the most striking colors that reveal the contrast of the island of Hawaii: the crystalline blue waters and the green of its vegetation differ from the hues of the island's volcanic paradise.

Tropical is a high-quality ABS suitcase with a security lock and four double wheels. Expandable in the medium and large sizes.

Enjoy paradise with TROPICAL.

43 MAMBO

One, two, three, four, five... Mambo Number 5

No one can resist the joy of mambo. One of the Cuban rhythms for excellence. Mambo burst as a novelty in the dance floors of the Caribbean country during the fifties. Just as this collection of suitcases does with its explosion of colour. Mambo quickly spread over the world and so will do these suitcases which are ready for any trip.

They are made of ABS material, double wheels, TSA lock and expandable in their three sizes. You could not ask for more from your dancing partner in your future adventures. Don't let the rhythm stop!

10 SIROCO

Like the wind

This new collection is inspired by a Gladiator classic. A modernization of the brand's highest quality textile suitcase with a modern and current finish.

Extendable in 3 sizes, TSA security lock, four double wheels... resistant to the toughest trips and with multiple compartments for your belongings.

The sirocco blows from the deserts of the Sahara – like a mass of tropical, hot and dry air – towards the Mediterranean. But also, a sirocco is an impulsive decision, an avenue, a soon. This suitcase is lightweight and ready for any impulsive decision on your trip.

Let yourself go where the wind blows.

37 ARCTIC

Elegant as a penguin

This collection features a fancy design and high quality materials. It has a combination of synthetic textiles and nylon that resists water splashes. It's a lightweight trolley with two front pockets for keeping your belongings at reach. Four double wheels, TSA lock and the medium and large trolleys are expandable for increased storage.

The Arctic collection includes a very interesting piece, a 3 way bag that complies with the new size regulations by Ryanair: a bag, crossbody and backpack that will match your trolley. How to carry it is your choice!

39 POLAR

Extreme adventures

Polar bears spend most of their lives on the sea ice of the Arctic Ocean.

A backpack trolley and a bag with wheels with measurements suitable for cabin luggage, a bag with wheels of greater capacity, a large bag and another with the right size to carry as hand luggage on low-cost companies such as Vueling.

A whole collection at the service of the most intrepid traveler. Polar is practical and urban, wild and confident. Made with a waterproof material, it allows you to transport your belongings safely and comfortably. Like polar bears that have a thick layer of body fat, a waterproof coating insulates them from air and cold water.

You can take it on a trip to the highest mountain or for a walk through the city.

Polar is inspired by adventure.

21 METRO

Next stop

Metro is a 2-wheel suitcase that optimises the space so that it has a large storage capacity. In addition, the sizes M and L are expandable and in this collection we incorporate the XL size: the "supercase". Also in the cabin trolley we find a reinforced compartment for laptops. Metro can be a great travel companion with all the features to travel comfortably. What will be your next stop?
