BOXING

FIRST ROUND

BOXING is the strongest suitcase on the market. Made of Polypropylene, Boxing is light and hard as a stroke of Muhammad Ali. In several colours to choose from, it has a sporty but elegant design: the surface plays with the matt and the bright.

Apart from being an indestructible suitcase, it is expandable in all 3 sizes, so there is always a little more space. Its 4 double wheels make it move smoothly on any terrain. It is the ideal suitcase for long trips or for those seeking resistance. It is ready to endure all your adventures and you will get bored of it before it breaks. In a 10-round, BOXING would win.

VÍCTOR LUQUE

THE MENTALIST WHO THINKS LIKE A FALCON
AND TRAVELS WITH ELEGANCE

There's a particular calm in the way Víctor Luque moves - that precise stillness that comes just before flight. A mentalist and falconer, he masters two arts that share the same essence: absolute observation, finely tuned instinct, and a quiet elegance.

On stage, Víctor is Spain's most acclaimed and highest-grossing mentalist, with the country's most-watched show. He doesn't perform tricks - he creates experiences that awaken the audience's intuition. His presence doesn't deceive: it guides. "The most powerful thing isn't what you see - he says - it's what you discover when you allow yourself to look."

Offstage, Víctor practices falconry in its purest form: the ancestral art of hunting with falcons. It's not entertainment or display; it's a disciplined partnership between man and bird. His passion is clear: hunting red partridge, the noblest and most demanding challenge of this tradition. There, in that tense and perfect moment when the falcon dives, he finds a truth no words can capture.

That aesthetic - precise, honest, unadorned - also defines his approach to the objects he chooses. That's why he travels with a Gladiator Helios suitcase, a premium nylon piece that combines

POLAR

EXTREME ADVENTURE

Polar bears spend most of their lives on the sea ice of the Arctic Ocean.

A backpack trolley and a bag with wheels with measurements suitable for cabin luggage, a bag with wheels of greater capacity, a large bag and another with the right size to carry as hand luggage on low-cost companies such as Vueling.

A whole collection at the service of the most intrepid traveler. Polar is practical and urban, wild and confident. Made with a waterproof material, it allows you to transport your belongings safely and comfortably. Like polar bears that have a thick layer of body fat, a waterproof coating insulates them from air and cold water.

You can take it on a trip to the highest mountain or for a walk through the city.

Polar is inspired by adventure.

LOOKING TO OUR ORIGINS TO MOVE FORWARD

Today, we revive that spirit - of those who didn't just design, but shaped their ideas with precision, passion, and craft. Because only those who have experienced manufacturing from the inside understand that true innovation isn't about inventing from scratch, but perfecting what you already know how to do better than anyone else.

That experience, accumulated over generations, is what drives us today to reinterpret our origins. We reaffirm the values that have always guided us - quality, durability, attention to detail - with our

focus on today's traveler: more conscious, more demanding, and more free.

At Gladiator, tradition and technology go hand in hand. We create with the precision of machines and the sensitivity of craftsmanship. Because we know that a great suitcase isn't just designed - it's felt, refined, and worked on until it reaches perfection.

From the Mediterranean to the world, we follow the same purpose that guided us in 1939, because we believe that traveling begins long before you step onto a plane.

Travel begins the moment you choose a suitcase built to last - one that carries your stories.

At Gladiator, we make luggage.

At Gladiator, the journey starts here.
